

MOHANAVALLI S

Aspiring Data Analyst

+91 8072209334 — Chennai, Tamil Nadu — mohanav369@gmail.com — LinkedIn — GitHub

Summary

Detail-oriented and analytical Data Analyst with strong problem-solving skills and attention to detail. Skilled in interpreting data, identifying patterns, and communicating insights effectively to support business decisions. Proficient in Power BI, MySQL, Excel, and Python for data cleaning, data modeling, and building interactive dashboards. Passionate about applying analytics to solve real-world business problems and support data-driven decision-making.

Skills

Data Analysis & BI Tools: Power BI (Data Modeling, DAX, Dashboards), Microsoft Excel (Pivot Tables, Power Query, VLOOKUP)

Databases & Querying: SQL (Joins, Subqueries, Aggregations)

Programming: Python (Pandas, NumPy, Data Cleaning)

Data Visualization: Power BI (Interactive Reports, KPIs, Charts)

Data Concepts: Data Cleaning, Data Transformation, Exploratory Data Analysis (EDA), KPI Reporting

Tools: Power BI Desktop, MySQL, Python, MS Excel

Familiar With: Business Analysis, Data Interpretation, Reporting Automation

Certification

Data Analytics Certification - Entri Elevate

Oct 2025 – May 2026

- Learned data analysis, data visualization, statistical concepts, and business intelligence concepts
- Hands-on experience with Power BI, Excel, and MySQL using real-world datasets

Data Analytics Certification - Illinois Tech, US

Oct 2025 – May 2026

- Covered core data analytics techniques, reporting, and dashboard creation
- Developed analytical thinking for interpreting data trends and insights

Projects

E-Commerce Sales Analysis (Excel)

- Analyzed e-commerce sales data using Excel to identify sales trends, customer behavior, and product performance
- Created pivot tables, KPIs, and an interactive Excel dashboard for sales and revenue analysis
- Performed data cleaning and transformation to support accurate business insights

Amazon Products Sales Analysis (Power BI)

- Developed an interactive Power BI dashboard to analyze Amazon product sales and category-wise performance
- Used data modeling, DAX measures, and visuals to track KPIs such as total sales, revenue, and top-performing products
- Provided actionable insights to support data-driven business decisions

Education

Bachelor of Computer Application (BCA)

Prof. Dhanapalan College
